### **DETAILED ACTION**

1. Applicant's arguments filed July 28, 2006, have been fully considered.
  2. Claims 16-22 and 38-45 were pending, have been examined, and are allowed.
- Claims 1-15 and 23-37 have been cancelled.

### ***Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance:
  - claims 16-22 and 38-45 are allowed.
  - the prior art of record, namely Yach et al. (US Patent Number: 5,454,114 hereinafter "Yach") and Green (US Patent Number: 4,769,765), does not expressly disclose the claimed steps and processing;
  - more specifically, even though Yach teaches the elements (CPU, integrated circuit, etc., columns 3-4) claimed in amended claims 16-22 and 38-45, Yach does not expressly disclose the steps of a CPU performing an initialization sequence and detecting a state of a timer (activated or not), and depending on the state performing another processing sequence or disabling the integrated circuit; and
  - Green simply provides the teachings for disabling a device according to a timer.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
